

CHALLENGER[®]

AMMUNITION

No matter the hunt, small or large game, waterfowling or clay target shooting, Challenger has the shotshells you are looking for.

Quel que soit le type de chasse que vous pratiquez, petit ou grand gibier, chasse à la sauvagine ou alors du tir au pigeon d'argile vous trouverez, dans notre gamme de produits, le chargement que vous cherchez.

OUR STORY ... SO FAR

Challenger's® reputation for making "Champion's" shotshells goes all the way back to 1983. That's when Elie Zarifé started making shotshells because clay-shooters and hunters couldn't get ammunition at the right price.

The original product lines have been expanded and new ones added. But through the changes, our formula for success has been constant: To bring

innovation in creating a product with an incredible ballistic performance, while aiming at offering both quality and value!

MADE BY HUNTERS FOR HUNTERS

Fabriqué par des chasseurs pour des chasseurs

Most new products are developed based on customer's feedback. We perfect them with the help of highly knowledgeable and experienced people. Our goal is always the same: to offer the best shotshell at the best price.

La plus grande partie de nos nouveaux produits sont issus des retours de terrain. Nous travaillons fort pour développer des cartouches les plus efficaces au meilleur prix.

NOTRE HISTOIRE

La réputation de Challenger de produire les cartouches des champions a commencé en 1983 quand Elie Zarifé a commencé à charger des cartouches afin que les tireurs et chasseurs puissent trouver des cartouches au bon prix.

La ligne originale de cartouches a été étendue, des nouveaux produits ont été développés. Malgré tout notre objectif reste le même: apporter de l'innovation afin de créer des cartouches avec des performances balistiques sans pareil, en offrant malgré tout un produit au meilleur rapport qualité prix.

NEW PRODUCT

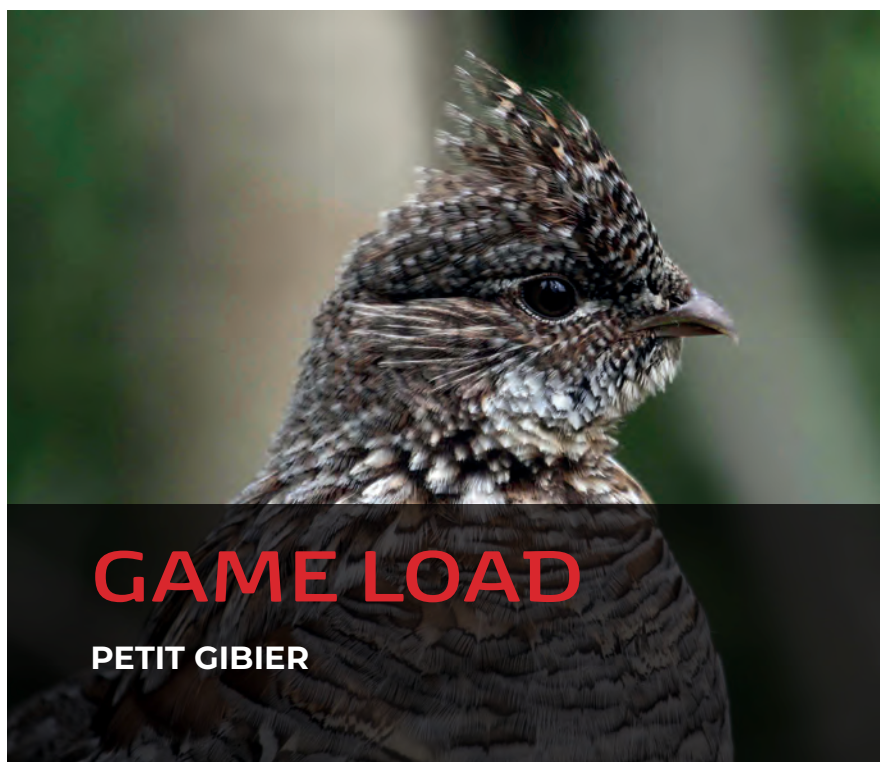

Building on the blistering performance of the Challenger Light load, this 1300 FPS competition load is designed for extreme Sporting clay targets and FITASC, delivering devastating performance and patterns at the longest range.

Conçue à la base sur les performances reconnues de la cartouche Challenger Light Load, la cartouche 1300 fps competition load est chargée pour les tirs extrêmes de parcours de chasse ou de FITASC, elle délivre des performance extrêmes et patttrone à très longue distance.
